Purpose

The purpose of this document is to set out the procedures which the College follows when concerns arise regarding the fitness to study of an undergraduate or postgraduate student.

It outlines the steps to be taken by the College in the event of a concern that a student’s behaviour or health has the potential to disrupt or threaten the welfare or academic progress of the student themselves or of others in the academic community.

Decisions made concerning a student’s fitness to study are made through a collective supportive process, after appropriate consultation and after consideration of the student’s ability to study, learn effectively and complete their course successfully.

The procedures described below do not take precedence over the relevant provisions of the College Statutes and Ordinances or, where applicable, the University’s Statutes and Ordinances. Further information regarding the University’s Fitness to study Procedure (revised June, 2020) is available at https://www.admin.cam.ac.uk/reporter/2019-20/weekly/6586/6586-SACS-ANNEXES.pdf

As a general rule this procedure is only intended for use in cases in which the behaviour, disruption or risk presented by the student is perceived to be of a serious or potentially serious nature. Where possible the tutorial system and other student support services should be used as the first port of call, prior to taking any formal action.

The Rationale for a Fitness to Study Procedure

Having this procedure set out enables students to have a document to which they can refer and which provides a clear understanding of their full responsibilities and expectations related to their commitment to study and life within the College community.

If and when a problem arises, steps taken are seen to be limited to those necessary to protect the best interests of the student, and other members of the College community and to ensure a consistent and sensitive approach to managing situations.

Tutorial, academic or support staff can initiate the procedure when concerns for a student are raised, thus allowing for concerns to be detected and addressed in a structured manner as early as possible.

Shared concerns in different sections of the College and the University community can be formally collated by the use of this process.

The problem-solving approach is objective-oriented, allowing a student to focus on agreed actions geared to achievable aims, which are clearly documented and come from a supportive perspective rather than a disciplinary one.
First Steps

In advance of this policy being initiated there are other support services in the College and the University to which students may be directed by Tutors or other support staff, if it is felt that this may be of benefit.

Students with a mental or physical health difficulty:

- are strongly advised to consult all relevant support services available in the College and University, especially the College Wellbeing Team, the College Nurse, the University Counselling Service, the University Mental Health Adviser, their General Practitioner, the Disability Resource Centre;
- are strongly encouraged to speak to their Tutor, Director of Studies or other appropriate member of College staff about the difficulty and any related problems that they may be experiencing.

Early intervention in student health/behaviour and recommendations for support can avoid a crisis situation. (For crisis situations see appendix.) Advice available from Tutors and in the self-help leaflets from the University Counselling Service will be useful, as may be advice from one or more of the following:

- University Mental Health Advisor
- College Nurse Clinic
- Cambridge SU
- Disability Resource Centre
- Occupational Health
- Student Advice Service
- Drinksense
- CAMEO
- Alcoholics Anonymous
- Cocaine Anonymous

1. Purpose and Scope of the Procedure

1.1. Whilst at University, all students should be able to study and perform to the best of their ability in a safe and comfortable environment. The reality of College and University life means that students not only work but also live in close proximity to each other, and whilst many students find studying and living in such an environment easy and enjoyable, others can find it more challenging.

The term ‘fitness to study’ as used in this document relates to the entire student experience, and not just a student’s ability to engage with their studies. For example, unless it is informed otherwise, the College expects its students to be able to live in harmony with others, and not conduct themselves in a way which has an adverse
impact on those around them. This procedure is not designed to address academic performance issues (which should be dealt with under normal academic assessment and monitoring procedures) except where poor academic performance is resulting from a fitness to study concern.

1.2. In order to maintain and enhance the College community, students need to conform to certain standards of behaviour. However, it is recognised that the cause of concern regarding fitness to study may include issues relating to a student’s health and general wellbeing, where disciplinary action may not be appropriate. The College and University have disciplinary mechanisms in place to deal with students whose behaviour falls outside acceptable standards (see the College’s Code of Discipline for Students and PDRAs and University Regulations).

1.3. A student’s fitness to study may be questioned if health problems are disrupting their own studies or the studies of others, or result in unreasonable demands being placed on staff or other students. The College has a duty of care to its community and is bound by health and safety legislation and the Equality Act, which means that it is obliged to take action if a student presents a risk to themselves or to others.

1.4. The level of risk to themselves, other students or others posed by a student will be measured by the use of a risk assessment process, which should be used throughout the procedure to provide a consistent means of assessing the risk to the student, other individuals and the institution. This process will be led by the Senior Tutor in close collaboration with health professionals. Even when no risk is involved, the fact that a student has a problem does not in itself justify or excuse inappropriate behaviour.

1.5. Once this procedure has been used (at any of the three stages) the behaviour observed will normally be considered under this procedure rather than under a disciplinary procedure.

1.6. If concerns are raised whilst a student is on authorised study away from Cambridge (e.g. is on a Year Abroad, has leave to Work Away, or is on a placement) the College will discuss with the other institution and the University Department, where appropriate, alternative arrangements that might address any concerns.

2. Circumstances under which a student’s fitness to study may be brought into question

A student’s fitness to study may be brought into question as a result of a wide range of circumstances. These include (but are not restricted to) the following:

- serious concerns about the student emerge from a third party (e.g. friend, other student, department, placement provider, member of the public, medical professional etc), which indicate that there is a need to address their fitness to study;
the student has told a member of the College that they have a problem and/or has provided information, which indicates that there is a need to address their fitness to study;
the student’s disposition is such that it indicates that there may be a need to address an underlying problem because their behaviour is causing problems to themselves or others, for example if they have demonstrated mood swings; shown signs of depression or become withdrawn;
behaviour, that would otherwise be dealt with as a disciplinary matter, but is considered may be the result of an underlying physical or mental health problem;
the student’s academic performance or persistent behaviour is not acceptable and this is thought to be the result of an underlying physical or mental health problem.

If Tutorial, Academic or Support Staff have concerns regarding a student’s fitness to study they should discuss this with the Senior Tutor and with the necessary support services, namely, either a member of the College’s Wellbeing Team (Head of Wellbeing, Mental Health Practitioner or Counsellor) or College Nurse, as appropriate, and consider implementing Stage 1 of the procedure.

This Fitness to Study Procedure has three stages depending on the perceived level of risk, the severity of the problem and the student’s engagement with efforts to respond to it. When a member of College raises concerns, the relevant member of College staff (usually the Tutor) has a duty to investigate and initiate this policy as part of their larger duty of care to College members.

3. Informal Action by the College: Stage 1

3.1. Should preliminary action in terms of support and guidance be unsuccessful, the designated member of College staff should approach the student and explain to them, in a supportive and understanding manner that concerns about their fitness to study have emerged. This would ordinarily be their College Tutor but could also be a member of the College Wellbeing Team or College Nurse. Should the Tutor or other member of staff require advice or guidance on this they should contact the Senior Tutor.

3.2. The student should be made aware of the precise nature of the behaviour that has caused these concerns to be raised. Normally the Tutor, but on occasions the Director of Studies or other staff member, will attempt to resolve the matter by informal discussions with the student. The student should be given the opportunity to explain their own views on the matter, and be encouraged to think about using one or more of the support services offered by the College or the University. It may also be appropriate to look into the possibility of applying academic arrangements or additional support to enable the student to study effectively.

3.3. It is hoped that in most cases, the concerns can be resolved at this level, and that the student will respond positively, co-operating fully with the process and taking
advantage of the support available. It may be necessary to obtain independent corroboration as to whether support offered is being taken up. The responsibility for providing this corroboration will lie with the student.

3.4. A review period should be determined by agreement between the Tutor, Director of Studies (if applicable) and the student to allow the student to consider their own behaviour and seek advice from the support services available. At the end of this period a meeting should be held to discuss any steps taken by the student to address the concerns. If the concerns have been addressed satisfactorily, this will be noted. Further meetings may be scheduled to continue to monitor the situation/progress and help ensure that continued support is provided to the student to enable them to study effectively. If, however, the concerns have not been addressed, a further review period may be agreed, or the case will move to the next stage of the policy.

3.5. The informal discussions, advice and any undertakings made by the College or University and/or the student should be documented for the benefit of the College, the University and the student, but should be kept confidential. Copies of documents are to be kept by the student, the student’s Tutor and by the Senior Tutor. A letter setting out what has been agreed should be given to the student.

3.6. If a student is unable or unwilling to co-operate with the above process or modify their behaviour, they should be informed that more formal action under Stage 2 of this procedure may be considered appropriate.

4. Case Review Group: Stage 2

4.1. If the action taken under Stage 1 has not been successful, or it is felt that the case is too serious to be dealt with informally, Stage 2 of the procedure can be invoked.

A meeting of a Case Review Group shall be convened by the Senior Tutor, made up of the student’s Tutor and the Senior Tutor and to include if appropriate: the Director of Studies; supervisor in the case of postgraduate students or Course Director as appropriate; member of the College Wellbeing Team or College Nurse. The student may be accompanied to this meeting by a student or other friend or representative if they so wish. Representatives such as the University Mental Health Advisor or a member of the Disability Resource Centre may also attend for information and advice if felt appropriate by the Senior Tutor.

In both stage 2 and stage 3 processes the student’s Tutor should be the point of contact with the student and should ensure that the Senior Tutor is kept informed of all communications. The Senior Tutor should be the main point of contact with all other agencies and individuals and should keep records of the whole process. The Senior Tutor should appoint a deputy if unavailable to act at any stage.

4.2. Before the meeting, a medical assessment may be sought from a qualified
practitioner familiar with the Cambridge University system and the spectrum of student difficulties or from the University Occupational Health Service. The student will be encouraged to consent to this assessment, as it will ultimately enable the College to address the student's difficulties in the most effective manner possible and make an accurate assessment of risk.

4.3. The medical assessment will be used to determine the following matters:

- the nature and extent of any medical condition from which the student may be suffering;
- the student’s prognosis;
- the extent to which it may affect their fitness to study and manage the demands of student life;
- any impact it may have or risk it may pose to others;
- whether any additional steps should be taken by the College, in light of the medical condition, to enable the student to study effectively;
- whether the student will be receiving any ongoing medical treatment or support.

4.4. The student will be asked to authorise full disclosure to the College of the results of any medical examination. The College recognises that any such information disclosed will constitute ‘sensitive data’ for the purposes of the Data Protection Act 2018 and will be handled, processed and stored accordingly. Should the student refuse to undertake a medical examination, or disclose results, the College may continue this procedure based on the information already in its possession.

4.5. The student will be given at least seven working days’ notice of the convening of a Case Review Group and informed of the purpose of the meeting. This period may be shortened in emergency on the advice of the Senior Tutor. The student will also be provided with any documents that will be considered by the Group, and asked to provide any documentation they may wish the Group to consider, in good time for the meeting.

4.6. The student may be accompanied at the meeting by a representative from Cambridge SU the Student Advice Service, a fellow student, or other advisor. A designated support worker, if required, may also accompany disabled students. The student should notify the Senior Tutor at least 24 hours in advance of the meeting if they are to be accompanied and by whom.

The purpose of the meeting will be to ensure that:

- the student is made fully aware of the nature of the concerns that have been raised;
- the student’s views are heard and taken account of and the best way to proceed is agreed upon;
- the student is fully aware of the possible outcomes if difficulties remain.
4.7. The Case Review Group will order its proceedings at its own discretion and may call witnesses, including Student Services staff (as in paragraph 3) working with the student, and institute enquiries to assist its deliberations.

4.8. The Case Review Group may decide:

(a) that no further action is required; or

(b) to formally monitor the student's progress for a specified period of time. In this case an action plan will be agreed with the student, outlining any steps, which the student will need to take, and/or any support to be provided to the student, to address the concerns identified. Regular review meetings with the student will need to be arranged with a nominated member of College staff, to ensure that the action plan is being appropriately followed and/or that reasonable support to enable the student to study effectively is being provided. The student will also need to be informed of the consequences of any breaches of the action plan, which will normally involve their fitness to study being considered at Stage 3; or

(c) to recommend that special academic arrangements or support are put in place. Such recommendations should be agreed with the student's department and by the student and approved by the relevant University authority.

The student will be informed that unless these arrangements remedy the concerns to the College's satisfaction, their fitness to study may be considered at Stage 3 of these procedures; or

(d) with the consent of the student, to agree that their studies be suspended for a period of time with appropriate application to the relevant University authority; or

(e) to refer the case to the Master of the College, to be considered under Stage 3 of this procedure. This will only be appropriate in the most serious of cases, where for example evidence of a serious risk to either the health and safety of the student or others has been identified, and it is thought that suspension, exclusion or expulsion of the student may be the appropriate course of action, or where a particular course of action has been recommended but the student does not agree.

4.9. The decision of the Case Review Group, together with a concise record of the meeting, should be sent to the student within seven working days from the date of the meeting, and a copy kept on the student's personal file. A copy of this documentation should be sent to the student's Department where relevant.

5. College Review Panel: Stage 3

5.1. This stage of the procedure will only be implemented following a referral from a Stage 2 Case Review Group, or if in the opinion of the Senior Tutor (having consulted as
appropriate) initial concerns are raised, which are sufficiently serious as to warrant the consideration of the student's suspension, exclusion or expulsion (e.g. if they pose a potentially threat to the health and safety of themselves or others, or disruption to the working of the institution).

5.2. As a first step in this stage the Senior Tutor shall consider whether interim suspension of the student pending further action is appropriate, including from College accommodation.

5.3. The Senior Tutor shall then convene a Review Panel, which shall be chaired by a senior member of the College Governing Body (appointed by the Master) with no previous involvement in the case. The Review Panel will normally comprise the Chair, the student's Tutor, the Senior Tutor, and another independent member of the College Governing Body, in addition to the Chair, who is not a member of the College Disciplinary Appeals Committee and has had no previous connection with the student.

5.4. The Chair will fix a date for a formal meeting of the College Review Panel to hear the case and invite the student to attend to discuss the concerns and all relevant issues.

5.5. Wherever possible the student will be given at least seven working days’ notice of the meeting of the College Review Panel. The student will be informed of the purpose of the hearing. The student will also be provided with any documents to be considered at the meeting, and asked to provide any documentation he/she may wish the Panel to consider in good time for the meeting. In serious cases the College may temporarily suspend a student, including sending out of residence pending a meeting of the Review Panel.

5.6. The student may be accompanied at the meeting by a representative from Cambridge SU the Student Advice Service, a fellow student, or other advisor. A designated support worker, if required, may also accompany disabled students. The student should notify the Senior Tutor at least 24 hours in advance of the meeting if they are to be accompanied and by whom.

5.7. The purpose of the meeting will be to consider the evidence available, including the student’s perception of these concerns and to reach an appropriate decision, action plan or other outcome.

5.8. The Review Panel will order its proceedings at its discretion and may call witnesses and institute enquiries to assist its deliberations, including Student Services staff working with the student, in particular the University Mental Health Advisor and which may include requesting further medical assessments of the student's fitness to study. It will also consider any previous risk assessments. The Chair of the Review Panel will ensure that all parties have access to all documents.

5.9. The decision it arrives at shall be confirmed by the Chair of the Review Panel having obtained a collective decision from members of the Panel.
5.10. The student shall be notified in writing of the decision, with reasons, within 14 working days of the meeting of the College Review Panel. It is advisable that the decision is communicated in such a way that support is available to the student at the time, preferably from the student’s Tutor or Senior Tutor.

The decision may include one or more of the following:

(a) to formally monitor the student’s progress for a specified period of time. In this case the Panel will provide the student with an agreed action plan, outlining any steps which the student will need to take and/or any support to be provided to the student to address the concerns identified. Regular review meetings with the student will need to be arranged with a nominated member of staff (to ensure that the action plan is being appropriately followed and/or that reasonable support to enable the student to study effectively is being provided). The student will also need to be informed of the consequences of any breaches of the action plan.

(b) that, following consultation with the academic Department, and subject to the approval of the relevant University authority, special academic arrangements are put in place – or an interruption of studies is agreed. The student will be informed of the consequences should these arrangements fail to remedy the concerns identified to the College’s satisfaction.

(c) to recommend that the College exercises its statutory power to suspend or exclude the student.

(d) any other action considered to be appropriate and proportionate.

Any decision regarding suspension or exclusion should be communicated by the Senior Tutor to the University and to any support services who have been involved with the student.

6. Referral to the University's Procedure to Support and Assess Capability to Study

6.1. The University has its own equivalent of the College’s Fitness to Study Procedure called the Procedure to Support and Assess Capability to Study. The University procedure relates to a student's capacity to fully engage with University life, both academically and otherwise, without unreasonable detriment to their wellbeing and whilst maintaining appropriate standards of behaviour. Where there are concerns regarding a student's capability to study, the University acts within a particular set of procedures, detailed at:

6.2. The University procedure has two stages:
   Stage 1: support to study
   Stage 2: assessing a student’s capability to study

6.3. Rather than using the College’s own Fitness to Study Procedure outlined in this
document, the Senior Tutor may initiate the University procedure at either stage by
making a written referral to the Head of OSCCA setting out the grounds for concern
and all relevant evidence about the student’s capability to study.

6.4. There are a number of factors that can determine whether the College or University
procedure is the most suitable to use, including whether:
   a) the behaviour that has prompted the concern is occurring primarily within a
      College or University setting;
   b) the College has a procedure sufficient to consider the concern;
   c) the student’s relationship with the College or the University has broken down.

6.5. In some circumstances it may be appropriate for the College to take forward stage 1
   and 2 of its own procedure, which is the equivalent of stage 1 of the University
   procedure.

6.6. Where the concern is not resolved by this action, the College may decide to refer any
   consideration equivalent to stage 2 into the University procedure by making a written
   referral to the Head of OSCCA, rather than proceeding with stage 3 of the College
   procedure.

6.7. The decision regarding whether to follow the College or University procedure to use
   will be made by the Senior Tutor, and potentially the Head of OSCCA if the University
   procedure is followed.

7. Return to Study

7.1. After a break in study, the student may make a request to the College for permission
   to return to the course. The decision as to whether to ask the University permission
   for the student to be put in standing to return to study will then be made by the Senior
   Tutor who will request authorisation for the student to return from the relevant
   University authority.

7.2. To this end, the Senior Tutor, in consultation with a member of the College’s
   Wellbeing Team or College Nurse, as appropriate, as well as relevant organisations
   such as the University Counselling Service, the University Mental Health Advisor, and
   Disability Resource Centre, etc, will identify the issues of concern that the College
   may have in respect of the student's fitness to study. The Senior Tutor will also contact
   the relevant medical professional for an assessment of the student’s ability to manage
   the demands of returning to studying at Cambridge University, drawing attention to
   the nature and extent of the student’s previous problems and the College’s concerns
   about them.

7.3. The student will only be permitted to return if, after receiving medical advice, the
College and relevant University authority are satisfied that the individual is fit to study and able to comply with any conditions imposed on their return.

7.4. In cases where the College has any continuing concerns about the individual’s fitness to study, it may require a second medical opinion. In this case a student may be asked to submit themselves for medical examinations by doctors / specialists, including the University Mental Health Advisor, nominated by the College, at the College’s expense to allow the situation to be properly evaluated.

7.5. In any case where a student returns to study following the implementation of the fitness to study procedure, the College should hold an initial meeting with the student to discuss what support measures need to be put into place for the student's return and establish a return to study plan. This initial meeting should include the student's Tutor, the Senior Tutor and the Director of Studies.

At this meeting it may be decided that there should be regular review meetings with the student, that can be used to monitor and support a return to study plan. If so, the student must provide their continued cooperation in this respect and such review meetings may continue for part or all of their remaining time at College. There should be a written record of what is agreed for the return to study plan and a copy given to the student. The Senior Tutor should ensure that, where appropriate, a copy of the plan is sent to the relevant support agencies, who have agreed to help implement the plan and that any necessary support from agencies external to the College is put in place. The Senior Tutor should make arrangements for monitoring that the support plan is being delivered and accepted.

8. Right of Appeal

If the student is not satisfied with any decision made in accordance with the Fitness to Study Procedure, they should follow the College complaints procedure within 14 days of the receipt of a letter outlining that decision, at any stage in the proceeding.

9. General Matters

8.1. The College will take account of relevant legislation such as the Data Protection Act, the Mental Health Act, the Human Rights Act, the Equality Act 2010 and the general rights and expectations of a student of confidentiality. In cases where Stages 2 or 3 of the Fitness to Study Procedure have been invoked, the Chair will make a decision about whether the student's emergency contact should be informed, and discuss with the student whether any statutory services should be contacted.

8.2. The College acknowledges that as a result of implementing this procedure it will receive personal sensitive data and data of a confidential nature pertaining to the student and other third parties, and shall ensure that all such data is handled, processed and stored accordingly.

APPENDIX: CRISIS SITUATIONS

It is possible that a student may pose such an extreme risk to themselves and / or others that they require emergency assistance outside these procedures.

In a situation where it is believed that a student’s behaviour presents an immediate risk to themselves or others, the Emergency Services should be contacted by dialling 999.

The College Porters’ Lodge should be informed. This should be followed up as soon as possible by notifying the Senior Tutor of the incident and the actions taken and logged via the OFMS incident system.

The person witnessing the student’s behaviour should not leave the scene until they have briefed the Emergency Services, bearing in mind the primary necessity to ensure their own safety.

The Porters’ Lodge will keep a record of the action taken by the Emergency Services and pass this on to the Senior Tutor. The Senior Tutor or nominee will ensure that contact is made at the appropriate level of detail with the student, the student’s Tutor and Director of Studies, or Supervisor in the case of postgraduates, and that appropriate arrangements are made with regard to follow up.

In the case of medical and veterinary students, incidents should be reported by the Senior Tutor to the Medical and Veterinary Progress Panel for advice as to whether there might be Fitness to Practice considerations arising.
