

Mentoring Through LinkHall: PaTHways Mentoring Programme

The PaTHways Mentoring Programme takes place every Michaelmas Term for 15 days, including two weekends.

LinkHall offers alumni the opportunity to mentor current students and recent alumni. These mentoring relationships help them better understand their future career possibilities and facilitate professional networking between members of the Trinity Hall community in the same field. The programme this year will focus on providing mentees support with job applications, cv and cover letter writing, and insights into what particular industries are like.

If you're interested in this opportunity, please update your profile on LinkHall in full, which will enable the system to find the best possible matches. The expected time commitment is of two hours for both mentors and mentees.

For those who would like to give or receive careers advice, but in a less formal structure it is possible to update your profile to reflect this: select 'Informal careers advice' under offer or seek help. Students and/or recent alumni professionals will be able to contact alumni who have made themselves available to help via messaging on LinkHall.

Mentees are expected to:

1. Have a good idea of what industries you are interested in and what questions you would like to ask their mentor; or
2. Send CV and covering letter to mentor through LinkHall for evaluation; or
3. Have at least one virtual (or in-person) mock interview with your mentor.

Mentors are expected to:

1. Provide mentees with the knowledge necessary to make an informed decision as to whether a particular industry is for them; or
2. Share feedback on a mentee's CV and covering letter; or
3. Have at least one virtual (or in-person) mock interview with mentee and provide feedback on their performance.

If you'd like to be involved as a mentor or mentee, make sure to edit your profile on LinkHall and tick the option 'PaTHways Mentoring Programme'. Mentees can sign up with the application form [here](#).

Full details on when and how the proposed activities should take place are provided before the programme starts. However, if you have any questions at this stage, please email Matthew on linkhall@trinhall.cam.ac.uk.
